IMPLEMENTATION OF DISASTER MANAGEMENT
 The Indian government strives to promote a national resolve to mitigate the damage and destruction caused by natural and man-made disasters, through sustained and collective efforts of all Government agencies, Non-Governmental Organizations and People's participation.
 In the recent past, the role of NGOs in disaster management (DM) has started changing from providing post-disaster relief to strengthening pre-disaster preparedness and mitigation through capacity building, public awareness campaigns, mock exercises, workshops and conferences, etc.
 *The Government of India enacted the Disaster Management Act, which envisaged the creation of "National Disaster Management Authority" (NDMA), "National Disaster Response Force" (NDRF).
 *Disaster Management strategy is to also provide a multidisciplinary, multi-skilled, high-tech Specialist Response Force for all types of disaster capable of insertion by Air, Sea & Land.
